July 2004 **ACM Transactions on Information Systems (TOIS),** Volume 22 Issue 3
Publisher: ACM Press
Full text available: 📄 pdf(1.24 MB)   Additional Information: full citation, abstract, references, index terms

> In ancient times, wax seals impressed with signet rings were affixed to documents as evidence of their authenticity. A digital counterpart is a message authentication code fixed firmly to each important document. If a digital object is sealed together with its own audit trail, each user can examine this evidence to decide whether to trust the content---no matter how distant this user is in time, space, and social affiliation from the document's source.We propose an architecture and design that a ...

4 Unlinkable serial transactions: protocols and applications
Stuart G. Stubblebine, Paul F. Syverson, David M. Goldschlag
November 1999 **ACM Transactions on Information and System Security (TISSEC),**
Volume 2 Issue 4
Publisher: ACM Press
Full text available: 📄 pdf(184.87 KB)   Additional Information: full citation, abstract, references, citings, index terms, review

We present a protocol for unlinkable serial transactions suitable for a variety of network-based subscription services. It is the first protocol to use cryptographic blinding to enable subscription services. The protocol prevents the service from tracking the behavior of its customers, while protecting the service vendor from abuse due to simultaneous or cloned use by a single subscriber. Our basic protocol structure and recovery protocol are robust against failure in protocol termination. ...

Keywords: anoymity, blinding, cryptographic protocols, unlinkable serial transactions

5 Technical Session: Organizing new interactions: internet portals in the instructional computer lab

Owen G. McGrath

October 2001 **Proceedings of the 29th annual ACM SIGUCCS conference on User services**

The U.C. Berkeley E-BABEL project centers on an internet portal for university-level foreign language learners. With E-BABEL's integrated set of linking and communication tools, foreign language instructors are able to offer their students well organized ways on the internet to use, encounter, and reflect upon the language they are studying. Built using the JA-SIG's uPortal technology, the E-BABEL environment's flexible and easily personalized interface addresses the concerns of instructors who ...

6 Regional advantages under the net-based environment

Guo Jianquan, Shi Chiliang

September 2003 **Proceedings of the 5th international conference on Electronic commerce ICEC '03**

Publisher: ACM Press

Full text available: ﹄pdf(149.27 KB)   Additional Information: full citation, abstract, references, index terms

The regional consideration is enclosed in the development of net-based economy and e-Business, and there is no departure of the cultivation of e-Business from the establishment of regional advantages. The traditional theory of the regional advantages has come across a serious impact from the Internet. So the development of Internet infrastructures and institutional environment would be something new to the theory of regional advantages in the Internet era.

Keywords: Internet infrastructures, Internet institutional environment, net-based economy, regional advantages

7 A secure and private system for subscription-based remote services

Pino Persiano, Ivan Visconti

November 2003 **ACM Transactions on Information and System Security (TISSEC),** Volume 6 Issue 4

Publisher: ACM Press

Full text available: ﹄pdf(241.65 KB)   Additional Information: full citation, abstract, references, index terms

In this paper we study privacy issues regarding the use of the SSL/TLS protocol and X.509 certificates. Our main attention is placed on subscription-based remote services (e.g., subscription to newspapers and databases) where the service manager charges a

flat fee for a period of time independent of the actual number of times the service is requested.We start by pointing out that restricting the access to such services by using X.509 certificates and the SSL/TLS protocol, while preserving the in ...

9 On secure and pseudonymous client-relationships with multiple servers
Eran Gabber, Phillip B. Gibbons, David M. Kristol, Yossi Matias, Alain Mayer
November 1999 **ACM Transactions on Information and System Security (TISSEC)**, Volume 2 Issue 4
Publisher: ACM Press

Full text available: pdf(161.56 KB)   Additional Information: full citation, abstract, references, citings, index terms, review

This paper introduces a cryptographic engine, Janus, which assists clients in establishing and maintaining secure and pseudonymous relationships with multiple servers. The setting is such that clients reside on a particular subnet (e.g., corporate intranet, ISP) and the servers reside anywhere on the Internet. The Janus engine allows each client-server relationship to use either weak or strong authentication on each interaction. At the same time, each interaction preserves privacy by neithe ...

15 Improving the granularity of access control for Windows 2000

Michael M. Swift, Anne Hopkins, Peter Brundrett, Cliff Van Dyke, Praerit Garg, Shannon Chan, Mario Goertzel, Gregory Jensenworth
November 2002 **ACM Transactions on Information and System Security (TISSEC)**, Volume 5 Issue 4
Publisher: ACM Press
Full text available: pdf(447.78 KB) Additional Information: full citation, abstract, references, citings, index terms, review

This article presents the mechanisms in Windows 2000 that enable fine-grained and centrally managed access control for both operating system components and applications. These features were added during the transition from Windows NT 4.0 to support the Active Directory, a new feature in Windows 2000, and to protect computers connected to the Internet. While the access control mechanisms in Windows NT are suitable for file systems and applications with simple requirements, they fall short of the ...

18 Session 3: XML applications: Towards an XML format for time-stamps
Karel Wouters, Bart Preneel, Ana Isabel González-Tablas, Arturo Ribagorda
November 2002 **Proceedings of the 2002 ACM workshop on XML security**
Publisher: ACM Press
Full text available: pdf(172.48 KB)   Additional Information: full citation, abstract, references

> XML has become a well-established format for information exchange. Several formats have been defined to secure XML data, such as XML Digital Signatures, XML Encryption and XKMS. In recent work by ETSI on XML digital signatures conforming to European legislation, time-stamps play a key role for qualified digital signatures. Some ASN.1-based formats for time-stamp protocols have been defined within IETF and ISO/IEC. In this paper, we investigate how the wide range of time-stamping protocols in the ...

19 Pen computing: a technology overview and a vision
André Meyer
July 1995 **ACM SIGCHI Bulletin**, Volume 27 Issue 3
Publisher: ACM Press
Full text available: pdf(5.14 MB)   Additional Information: full citation, abstract, citings, index terms

> This work gives an overview of a new technology that is attracting growing interest in public as well as in the computer industry itself. The visible difference from other technologies is in the use of a pen or pencil as the primary means of interaction between a user and a machine, picking up the familiar pen and paper interface metaphor. From this follows a set of consequences that will be analyzed and put into context with other emerging technologies and visions.Starting with a short historic ...

The Internet in its present form does not protect content from censorship. It is straightforward to trace any document back to a specific Web server, and usually directly to an individual. As we discuss below, there are valid reasons for publishing a document in a censorship-resistant manner. Unfortunately, few tools exist that facilitate this form of publishing. We describe the architecture of robust systems for publishing content on the Web. The discussion is in the context of Publius, as that ...

Michael J. Gallivan, Duane P. Truex, Lynette Kvasny

August 2004 **ACM SIGMIS Database**, Volume 35 Issue 3

Publisher: ACM Press

Full text available: pdf(224.27 KB)   Additional Information: full citation, abstract, references, index terms

This paper examines trends in required job skills for IT professionals. Through an empirical study of classified job advertising for IT professionals over the past 17 years, we evaluate whether the observed trends support earlier predictions offered by researchers who sought to anticipate future job and skill demands (Leitheiser 1992; Trauth, Farwell, & Lee 1993). Many of the findings are consistent with previous studies and support the notion that employers are seeking an ever-increasing number ...

Holger M. Kienle, Daniel German, Scott Tilley, Hausi A. Müller

October 2004 **Proceedings of the 22nd annual international conference on Design of communication: The engineering of quality documentation**

Publisher: ACM Press

Full text available: pdf(153.91 KB)   Additional Information: full citation, abstract, references, index terms

This paper addresses how intellectual property affects the Web in general, and content publishing on the Web in particular. Before its commercialization, the Web was perceived as being free and unregulated; this assumption is no longer true. Nowadays, content providers need to know which practices on the Web can result in potential legal problems. The vast majority of Web sites are developed by individual such as technical writers or graphic artists, and small organizations, which receive lim ...

13 A study of web usability for older adults seeking online health resources   ▬

Shirley Ann Becker

December 2004 **ACM Transactions on Computer-Human Interaction (TOCHI)**, Volume 11 Issue 4

Publisher: ACM Press

Full text available: pdf(134.25 KB)   Additional Information: full citation, abstract, references, index terms

The Web offers older adult users immediate access to health resources that might not otherwise be available. Older adult users, however, may encounter Web barriers associated with normal aging and lower education. The National Institute on Aging Web guidelines were used to assess the usability of 125 Web sites offering health resources. Performance, translation, and reading complexity were also assessed. Results showed that many of the sampled sites were not senior-friendly. Only 12% o ...

14 Advertising, profits, switching costs, and the Internet

Avi Goldfarb
September 2003 **Proceedings of the 5th international conference on Electronic commerce ICEC '03**
Publisher: ACM Press
Full text available: pdf(251.31 KB)   Additional Information: full citation, abstract, references, index terms

In this paper, I model the online media market. There are three types of players in the market: advertisers, publishers, and users. The advertising side of the market is competitive and publishers are price takers. To draw users, they compete in quality. I find that without any frictions, publishers will earn zero profits; however, if users face switching costs, publishers earn positive profits because they deteriorate quality to the locked-in users. I provide empirical evidence for this predict ...

17 Technical Session: Organizing new interactions: internet portals in the instructional computer lab

Owen G. McGrath
October 2001 **Proceedings of the 29th annual ACM SIGUCCS conference on User services**
Publisher: ACM Press
Full text available: pdf(1.39 MB)   Additional Information: full citation, abstract, references, citings, index terms

The U.C. Berkeley E-BABEL project centers on an internet portal for university-level foreign language learners. With E-BABEL's integrated set of linking and communication tools, foreign language instructors are able to offer their students well organized ways on the internet to use, encounter, and reflect upon the language they are studying. Built using the JA-SIG's uPortal technology, the E-BABEL environment's flexible and easily personalized interface addresses the concerns of instructors who ...

18 Regional advantages under the net-based environment

Guo Jianquan, Shi Chiliang
September 2003 **Proceedings of the 5th international conference on Electronic commerce ICEC '03**
Publisher: ACM Press
Full text available: pdf(149.27 KB)   Additional Information: full citation, abstract, references, index terms

The regional consideration is enclosed in the development of net-based economy and e-Business, and there is no departure of the cultivation of e-Business from the establishment of regional advantages. The traditional theory of the regional advantages has come across a serious impact from the Internet. So the development of Internet infrastructures and institutional environment would be something new to the theory of regional advantages in the Internet era.

Keywords: Internet infrastructures, Internet institutional environment, net-based economy, regional advantages

19 Metaphor in theory and practice: the influence of metaphors on expectations

Anne Hamilton
November 2000 **ACM Journal of Computer Documentation (JCD)**, Volume 24 Issue 4
Publisher: ACM Press
Full text available: pdf(672.49 KB)   Additional Information: full citation, abstract, references, index terms

The use of metaphors is pervasive in all forms of discourse. This paper is concerned with providing a brief review of the development of metaphor theory,illustrated with some examples of supportive empirical research.These include a canonical study of the way concepts of instruction and education are influenced, a study into the effects of human-computer interface metaphors on computer systems users,and a study designed to assess the impacts of metaphor use on attitudes to internet commerce ...

3 Image Retrieval from the World Wide Web: Issues, Techniques, and Systems   ■
M. L. Kherfi, D. Ziou, A. Bernardi
March 2004 **ACM Computing Surveys (CSUR)**, Volume 36 Issue 1
Publisher: ACM Press
Full text available: 📄 pdf(294.13 KB)   Additional Information: full citation, abstract, references, index terms

With the explosive growth of the World Wide Web, the public is gaining access to massive amounts of information. However, locating needed and relevant information remains a difficult task, whether the information is textual or visual. Text search engines have existed for some years now and have achieved a certain degree of success. However, despite the large number of images available on the Web, image search engines are still rare. In this article, we show that in order to allow people to profi ...

4 Improving the granularity of access control for Windows 2000

Michael M. Swift, Anne Hopkins, Peter Brundrett, Cliff Van Dyke, Praerit Garg, Shannon Chan, Mario Goertzel, Gregory Jensenworth

November 2002 **ACM Transactions on Information and System Security (TISSEC)**, Volume 5 Issue 4

Publisher: ACM Press

Full text available: pdf(447.78 KB)   Additional Information: full citation, abstract, references, citings, index terms, review

This article presents the mechanisms in Windows 2000 that enable fine-grained and centrally managed access control for both operating system components and applications. These features were added during the transition from Windows NT 4.0 to support the Active Directory, a new feature in Windows 2000, and to protect computers connected to the Internet. While the access control mechanisms in Windows NT are suitable for file systems and applications with simple requirements, they fall short of the ...

5 Proxy-based acceleration of dynamically generated content on the world wide web: An approach and implementation

Anindya Datta, Kaushik Dutta, Helen Thomas, Debra Vandermeer, Krithi Ramamritham

June 2004 **ACM Transactions on Database Systems (TODS)**, Volume 29 Issue 2

Publisher: ACM Press

Full text available: pdf(927.23 KB)   Additional Information: full citation, abstract, references, index terms

As Internet traffic continues to grow and websites become increasingly complex, performance and scalability are major issues for websites. Websites are increasingly relying on dynamic content generation applications to provide website visitors with dynamic, interactive, and personalized experiences. However, dynamic content generation comes at a cost---each request requires computation as well as communication across multiple components.To address these issues, various dynamic content caching ap ...

6 Shape-based retrieval and analysis of 3D models

Thomas Funkhouser, Michael Kazhdan

August 2004 **Proceedings of the conference on SIGGRAPH 2004 course notes GRAPH '04**

Publisher: ACM Press

Full text available: pdf(12.56 MB)   Additional Information: full citation, abstract

Large repositories of 3D data are rapidly becoming available in several fields, including mechanical CAD, molecular biology, and computer graphics. As the number of 3D models

grows, there is an increasing need for computer algorithms to help people find the interesting ones and discover relationships between them. Unfortunately, traditional text-based search techniques are not always effective for 3D models, especially when queries are geometric in nature (e.g., find me objects that fit into thi ...

7 A secure multicast protocol with copyright protection

Hao-hua Chu, Lintian Qiao, Klara Nahrstedt, Hua Wang, Ritesh Jain

April 2002 **ACM SIGCOMM Computer Comm unication Review**, Volume 32 Issue 2 ·

Publisher: ACM Press

Full text available: pdf(301.97 KB)   Additional Information: full citation, abstract, references, citings, index terms

We present a simple, efficient, and secure multicast protocol with copyright protection in an open and insecure network environment. There is a wide variety of multimedia applications that can benefit from using our secure multicast protocol, e.g., the commercial pay-per-view video multicast, or highly secure military intelligence video conference. Our secure multicast protocol is designed to achieve the following goals. (1) It can run in any open network environment. It does not rely on any sec ...

8 XRel: a path-based approach to storage and retrieval of XML documents using relational databases

August 2001 **ACM Transactions on Internet Technology (TOIT)**, Volume 1 Issue 1

Publisher: ACM Press

Full text available: pdf(264.27 KB)   Additional Information: full citation, abstract, references, citings, index terms, review

This article describes XRel, a novel approach for storage and retrieval of XML documents using relational databases. In this approach, an XML document is decomposed into nodes on the basis of its tree structure and stored in relational tables according to the node type, with path information from the root to each node. XRel enables us to store XML documents using a fixed relational schema without any information about DTDs and also to utilize indices such as the B+

9 Papers from the 2003 international conference on Database theory: Processing XML streams with deterministic automata and stream indexes

Todd J. Green, Ashish Gupta, Gerome Miklau, Makoto Onizuka, Dan Suciu

December 2004 **ACM Transactions on Database Systems (TODS)**, Volume 29 Issue 4

Publisher: ACM Press

Full text available: pdf(717.00 KB)   Additional Information: full citation, abstract, references, index terms

We consider the problem of evaluating a large number of XPath expressions on a stream of XML packets. We contribute two novel techniques. The first is to use a single Deterministic Finite Automaton (DFA). The contribution here is to show that the DFA can be used effectively for this problem: in our experiments we achieve a constant throughput, independently of the number of XPath expressions. The major issue is the size of the DFA, which, in theory, can be exponential in the number of XPath expr ...

14 Making computers disappear: appliance data services

Andrew C. Huang, Benjamin C. Ling, John Barton, Armando Fox
July 2001 **Proceedings of the 7th annual international conference on Mobile computing and networking**
Publisher: ACM Press

Full text available: 📄 pdf(691.57 KB)   Additional Information: full citation, abstract, references, citings, index terms

> Digital appliances designed to simplify everyday tasks are readily available to end consumers. For example, mobile users can retrieve Web content using handheld devices since content retrieval is well-supported by infrastructure services such as transformational proxies. However, the same type of support is lacking for input-centric devices, those that create content and allow users to share content. This lack of infrastructural support makes input-centric devices hard to use and less useful. ...

15 Copyrights and access-rights: Experiences with the enforcement of access rights extracted from ODRL-based digital contracts

Susanne Guth, Gustaf Neumann, Mark Strembeck
October 2003 **Proceedings of the 3rd ACM workshop on Digital rights management DRM '03**
Publisher: ACM Press

Full text available: 📄 pdf(241.29 KB)   Additional Information: full citation, abstract, references, citings, index terms

> In this paper, we present our experiences concerning the enforcement of access rights extracted from ODRL-based digital contracts. We introduce the generalized *Contract Schema* (CoSa) which is an approach to provide a generic representation of contract information on top of rights expression languages. We give an overview of the design and implementation of the xORELInterpreter software component. In particular, the xORELInterpreter interprets digital contracts that are based on rights exp ...

16 Wide-area monitoring of mobile objects: Electronic shepherd: a low-cost, low-bandwidth, wireless network system

20 A semantic network-based design methodology for XML documents

Ling Feng, Elizabeth Chang, Tharam Dillon
October 2002 **ACM Transactions on Information Systems (TOIS)**, Volume 20 Issue 4
Publisher: ACM Press

Full text available: pdf(285.64 KB)   Additional Information: full citation, abstract, references, citings, index terms

The eXtensible Markup Language (XML) is fast emerging as the dominant standard for describing and interchanging data among various systems and databases on the Internet. It offers the Document Type Definition (DTD) as a formalism for defining the syntax and structure of XML documents. The XML Schema definition language, as a replacement for the DTD, provides more rich facilities for defining and constraining the content of XML documents. However, it does not concentrate on the semantics that und ...

13 **ELECTRONIC INFORMATION DISTRIBUTION SYSTEM, ELECTRONIC INFORMATION DISTRIBUTION DEVICE AND ELECTRONIC INFORMATION DISTRIBUTION METHOD**
Inventor: OTANI HISAO   Applicant: SONY CORP

EC: IPC: *G06F15/00*; G06F15/00; (IPC1-7): G06F17/60
                                               (+1)

Publication info: **JP2004199185** - 2004-07-15

14 **PAGE OPENED/CLOSED STATE INPUT DEVICE FOR ELECTRONIZED DOCUMENTS, ELECTRONIC BOOK, AND DISPLAY METHOD FOR ELECTRONIZED DOCUMENTS**
Inventor: ENOMOTO MITSUTAKA; TAKADA HIROTAKA   Applicant: SONY BROADBAND SOLUTION CORP

EC: IPC: *G06F3/00*; *G06F3/033*; *G06F17/30* (+12)

Publication info: **JP2004145553** - 2004-05-20

15 **ELECTRONIC DOCUMENT RETRIEVAL SYSTEM**
Inventor: KIMURA MASAYUKI   Applicant: KONISHIROKU PHOTO IND

EC: IPC: *G06F17/30*; G06F17/30; (IPC1-7): G06F17/30
                                               (+1)

Publication info: **JP2003216611** - 2003-07-31

16 **ADVERTISEMENT DISPLAY RECORD MANAGING METHOD IN ELECTRONIC NEWSPAPER AND ADVERTISEMENT DISPLAY RECORD MANAGING SYSTEM**
Inventor: FUKUDA YUKIO; OGIKUBO TOMOFUMI; (+2) Applicant: TOKYO SHIBAURA ELECTRIC CO

EC: IPC: *G06F17/30*; *G09F19/00*; G06F17/30 (+4)

Publication info: **JP2003141328** - 2003-05-16

17 **Electronic advertisement system and method**
Inventor: COLAS TODD ROBERT (US); ROFFMAN CRAIG Applicant:
BENTLEY (US)
EC: G06Q30/00A   IPC: *G06Q30/00*; G06Q30/00; (IPC1-7): G06F17/60

Publication info: **US2003046152** - 2003-03-06

18 **IMAGE DISPLAY SHEET FOR ELECTRONIC INFORMATION, THE ELECTRONIC INFORMATION RECORDING AND DISPLAY SYSTEM**
Inventor: SAKAMAKI TERUO   Applicant: DAINIPPON PRINTING CO LTD

EC: IPC: *G02F1/13*; *G09G3/20*; *G09G3/36* (+9)

Publication info: **JP2002277849** - 2002-09-25

19 **IMAGE DISPLAY SHEET FOR ELECTRONIC INFORMATION, AND RECORDING AND DISPLAY SYSTEM FOR ELECTRONIC INFORMATION**
Inventor: SAKAMAKI TERUO   Applicant: DAINIPPON PRINTING CO LTD

EC: IPC: *G02F1/17; H04N5/76*; G02F1/01 (+3)

Publication Info: **JP2002277907** - 2002-09-25

20 PICTURE DISPLAY SHEET FOR ELECTRONIC INFORMATION AND SYSTEM FOR RECORDING AND DISPLAYING ELECTRONIC INFORMATION

Inventor: SAKAMAKI TERUO   Applicant: DAINIPPON PRINTING CO LTD

EC: IPC: *G02F1/167; G09F9/00; G09G3/34* (+9)

Publication info: **JP2002244620** - 2002-08-30

Data supplied from the *esp@cenet* database - Worldwide

RESULT LIST
43 results found in the Worldwide database for:
electronic in the title AND **newspapers** in the title or abstract
(Results are sorted by date of upload in database)

21 **ELECTRONIC NEWSPAPER DISTRIBUTION SYSTEM**

Inventor: MIYOSHI KATSUYA; SASAMORI TAKAHIRO   Applicant: NIPPON KOGAKU KK

EC: IPC: *G06F13/00; G06T1/00; H04N7/173* (+7)

Publication info: **JP2002215726** - 2002-08-02

22 **ELECTRONIC STORE SYSTEM**

Inventor: HASHII KUNIO   Applicant: CRC SOLUTIONS CORP

EC: IPC: *G06F17/30*; G06F17/30; (IPC1-7): G06F17/60 (+1)

Publication info: **JP2002133151** - 2002-05-10

23 **ELECTRONIC PROOF OF PUBLICATION SYSTEM AND METHOD**

Inventor: LECY PETER J; THIELGES JODI K; (+1)   Applicant: NOVUS MARKETING INC (US)

EC: G06Q30/00A   IPC: *G06Q30/00*; G06Q30/00; (IPC1-7): G06F17/00

Publication info: **WO0077671** - 2000-12-21

24 **METHOD FOR ELECTRONIC COMMERCE BETWEEN ELECTRONIC BOOK SELLER AND ITS SUBSCRIBER**

Inventor: SAEKI HIROFUMI   Applicant: SAEKI HIROFUMI

EC: IPC: *G07F17/00*; G07F17/00; (IPC1-7): G06F17/60 (+1)

Publication info: **JP2001331672** - 2001-11-30

25 Newspaper automated intelligent layout system for electronic publishing of electronic and print media e.g. newspapers, magazines and computer text systems

Inventor: LANGFORD WILSON ALISTAIR   Applicant: CYBERGRAPHIC SYSTEMS LTD (AU)

EC: G06F17/21F   IPC: *G06F17/21*; G06F17/21; (IPC1-7): G06F17/21 (+1)

Publication info: **FR2795539** - 2000-12-29

26 **ELECTRONIC NEWSPAPER DISTRIBUTING METHOD, STORE TERMINAL EQUIPMENT, RECORDING MEDIUM, ELECTRONIC NEWSPAPER SYSTEM AND ELECTRONIC NEWSPAPER INSERTED BILL DISTRIBUTING METHOD**

Inventor: FUKUDA NORIMITSU   Applicant: NIPPON ELECTRIC CO

EC: IPC: *G06F17/30; H04N1/00; H04N1/32* (+7)

Publication info: **JP2001222542** - 2001-08-17

27 Electronic publishing system with plural selectable layouts for newsholes

Inventor: LANGFORD-WILSON ALISTAIR (AU)   Applicant: CYBERGRAPHIC SYSTEMS LTD (US)

EC: G06F17/21F; G06T11/60   IPC: *G06F17/21; G06T11/60*; G06F17/21 (+2)

Publication info: **US6589292** - 2003-07-08

28 **ELECTRONIC INFORMATION DISPLAY DEVICE AND ELECTRONIC INFORMATION READING METHOD**

Inventor: FUKUSHIMA SHINICHIRO; UEYAMA MAYUMI Applicant: HITACHI LTD

EC: IPC: *G06F17/27; G06F17/30*; G06F17/27 (+3)

Publication info: **JP2000112962** - 2000-04-21

29 System and method for providing customized electronic newspapers and target advertisements

Inventor: HERZ FREDERICK S M (US)   Applicant: PINPOINT INC (US)

EC: G06F17/30W1F; G06Q30/00A; (+4)   IPC: *G06F17/30; G06Q30/00; H04N7/16* (+11)

Publication info: **US6460036** - 2002-10-01

30 Point Matrix Display Panel Construction for Urban Electronic Newspapers

Inventor: LE GARS JACQUES

Applicant: J C DECAUX INTERNATIONAL (FR)

EC: G09F9/37M

IPC: *G09F9/37*; **G09F9/37**; (IPC1-7): G09F11/23 (+1)

Publication info: **FR2761189** - 1998-09-25
